

AUTOBIO 2020

Automatec Cell Culture Robot System

Characteristic

- * Can be produced from a minimum of 80 people
- * Easy layout change
- * Efficient sterilization system
- * Fully automatic robot from sample input to product
- * Rich recipe support
- * Safety cabinet specifications

Specification

Product Name: Automatec Cell Culture Robot System

Product Model: AUTOBIO-2020-080 / 160 / 240 / 320 / 400

- * 3 weeks from order to shipment
- * Work efficiency improved with dual-arm robot
- * Smooth dispensing work with micropipette
- * Contamination prevention by individual client
- * Isolation by pass BOX
- * Consumables are commercially available
- * Main power supply:
Three-phase / Single-phase AC200V35A(Culture System)
+ 50A (Incubator room) in the case of 80 samples
- * Weight: 500kg (Culture System)
- * Size: W1500 x D1500 x H2000 [mm³] (Culture System)
W3500 x D5500 x H2400 [mm³](Incubator room)
